Utah Career Pathways align with and are categorized by the national Career Clusters ®. Each Career Pathway

Science, technology, engineering, and mathematics - Wikipedia
Science, technology, engineering, and mathematics (STEM) is a broad term used to group together these academic disciplines. This term is typically used to address an education policy or curriculum choices in schools. It has implications for workforce development, national security concerns (as a shortage of STEM-educated citizens can reduce effectiveness in this area) and immigration policy.

'Time to get real' on US science diversity efforts | Times
22/10/2021 · “It’s time to get real about this work,” said David Asai, the senior director for science education at HHMI, whose 300 institute-funded researchers are regarded as the stars of their disciplines. New studies such as the National Academies effort are welcome and could bring valuable insights, Dr Asai said. At the same time, he continued, it has become abundantly clear that cultural
